NEWSLETTER for meeting of February 14, 1964 (Valentine's Day)

SAD NEWS ...

I'd like to take this eppertunity to thank the members of the club for all the support and active interest they have given our club in the past months. It was not so long ago when the very existence of the club was hanging in the balance. But happily, due to much new blood and renewed support from vetern members, we have been able to get the club back soundly on its feet.

It's up to us now to make the coming years of the club the most successful ever. But it's the job of all of us, nat just the officers. In recent months, the support and enthusiasm oa all the members of the club has been more than gratifying. I can only hope this enthusiasm continues in the future.

The outlook for the future could hardly be better. This year's Field Day committee is doing a bang-up planning job. The sites under consideration are being studied thoroughly on topagraphical maps. WA6ZPJ is constructing a quad antenna out of bamboo; and a fifteen meter beam is available for use by participating novices. Separate sleeping tents will be set up this year to avoid the slightly crowded situation that came about last year when all the ops decided to hit the hay at the same time. A necessary rule will be in force this year that every item donated for use must be labeled, right down to the last stray nut and bolt. This will make the packing up process a slight task. All in all, this year's Field Day threatens to be the biggest and best in the club's history. I am hopeful that all of the members will be willing to help see that it is.

My special thanks go out to Gene Lew, our net control, for his work to make our Saturday-night on-the-air get together mike (Famie), and antenna. Cnct Geno a much looked foreward to and enjoyable stub activity.

Thanks, and we'll see you at the "Aft" Thomas, W6SAD seting. President, E.B.R.C.

MEETING, FEBRUARY 14

This month's meeting has one of the most interesting programs lined up for months. We are honored to have as our guest speaker WA6IBR, one of the amate involved in the infamoud Santa Barbare dispute. He is the son in a ham fami. which has been declared a "public nui" over alleged interferance with local 1 and hi-fi's. Radio clubs all over the country have donated funds to help f the case. Come and see this program you want to get the whole story right from the hosse mouth.

We have also invited Bill Mc Kinn WA6YNY/NØSGQ to give a short talk abou the Navy MARS program and answer any questions the members might want to ask. Bill is the Asst. Co-ordinator of Navy MARS here in the East Bay. A similar tak. was given at the Oakland Radio Club and proved very interesting.

If there is time, the slides of les year's Field Day will be shown. These should help prove to the throngs of six that there was a Field Day at all last

NEWSLETTER for meeting of Friday, May 8, 1964

SAD NEWS ...

Next month is Field Day, and the club's plans are beginning to take form. There are several possible sights being considered, and we have obtained clearance to use them all. We are also seeking permission to use house trailers for the weekend. The problem of line cords and generators are finding solutions. We will try to secure enough space to erect a uni-directional rhombic antenna. All necessary rigs have been obtained for use. Our biggest problem is getting the members to participate.

When I accepted the office of President last year, it was with the understanding that each member would do his part to help the club be a success. So far I have had no real cause for complaint It is beyond my comprehension to understand haw someone could participate in the club activities one hundred percent all during the year and run off by themselves on Field Day. Field Day is the club activity. We started our plans rolling several months in advance so that we could have the most fun possible when Field Day actually rolls around. The East Bay Radio Club isn't myself or Gene or any of the other officers. We aren't the ones responsible for club co-operation -- that is the job of the club's members themselves. Field Day will be as successful and as much fun as the members want to make it. The officers are doing their part -- the rest is up to you. Now is the time to stand up and be counted. If on Field Day you would rather be off in the woods by yourself, you might as well stop coming to the meetings because we don't want you. For the Field Day operation to go smoothly. we need a lot of people to take part. Even if you do not have a license, you can be of service as a logger, or help out in the hundreds of other details that must be contended with on Field Day.

73's, Art Thomas, W6SAD President, E.B.R.C. MEETING, MAY 8TH ...

This month's meeting will have a program that will be of interest to the new and veteran member alike. Over the past several months we have run across many interesting documents from out of the early days of the club's history. From these we have discovered, piece by piece, the general trend of our club's seventeen year past. The picture is becoming clearer and more complete every day. We figure that if everyone would put their heads together, we could come up with a fairly accurate chronical of the club's bygone days. So for Friday's meeting we are arranging for many past and even charter members to be present. A good deal of money has been spent to make a good number of the documents into slides.

So come join in the nostalgia, it should be very interesting for all concerned -- as well as being a lot of fun. The meeting place will be, as always, the electronics lab at El Cerrito High, 8 PM, Friday, April...(oops!) May 8th, 1964. A raffle, refreshments, and conversation will follow.

Many members were a little pushed out of shape last month because our club was not even mentioned in the "list of amateur clubs in the East Bay" that was printed in the SCM's station activities report in the April QST. We have since set him straight, and expect him to attend the meeting Friday. The reason we were not mentioned is that neither our club or the members has been sending in monthly reports. If you have any miscellaneous information about a change in rigs, obtaining a new class of license, a new QTH, special stunt of some kind, anything of general interest, be sure to give the information to our public relations officer at the club meeting. He will give the information to the SCM in the form of an over-all club report.

We have also asked ARRL hotrs to check our status as an affiliated club Morrie Pool Wedji 7315 Bureka St. El Cerrito, Calif.

RICHARD G, DUNN BERKELEY, CALIF, 94707 •

all and the audited of other defails

East Bay Radio Club

RADIO ECLUB FRITTE INBOME

To begin, I'd like to straighted out all of those poor souls who were expecting to find something a little more in line with the recent tradition of mimeographed newsletters by stating that this is indeed the official bullitin of the East Bay Radio Club. The new name and format were voted in by the membership at the May meeting. It is not, as it seems to be, a change. Eather, it is an attempt at continuity. The name "QLF" was the origoinal name given to the newsletter in 1948. For a number of years when the bulletin was not printed at all, the name was dropped, but during our attic raids preparing the material for "history night," a number of old QIF's were dug upo Well, here we area

This month brought the unbelieveable news of the death of one of the younger members of the club, Steve Burr, WA6PKG, Steve was killed together with 73 others in the crash of an Air Jorge Transport en route to the Philippines hefrom attend. For those not connected, there will Travis Air Force Base, Most of us feel a deep personal loss in Steve's death. He will be ling remembered for his hard work in co-ordination

of last Field Day operation.

We are still trying to collect the needed information to attain active affiliation with the ARRL. With this goes a good number of helpful services. For instance, for the June meeting we plan to borrow a movie on single sideband. To retain "active" status, the League requires clubs bo present detailed information about its membership. Please fill out the attached questionaire and give it to Bob Marsh, WA62PJ, atour June meeting or if you can't make the meeting, send it to himo

From what I understand, the Field Day plans are coming down the home stretch in fine style. Gene has dusted off the old theory books and come up with some pretty far out antenna designs that are figured to give us maximum effectiveness from our low power transmitters. The use of single sideband as well as the antennas and excellent location should help this years Field Day shape up to best in recent history. I hesitate to say the best of all time" after hearing of the clubs huge Field Day operation in 1948 - 5

and 24 hour operation. Who knows, we may beat

tants, all bands with AM and CW on each,

that this year! See you on Field Day. Art Thomas, President, E.B.R.C. MEETING, JUNE 12theco

This meeting may not turn out to be too tremendously exciting, we do expect to get quite a bit acomplished. The only "program" as such scheduled is a movie on single sideband as compared to All - which might not be so dull at that. But even the mavie is not certain. There should be quite enough work to do in regard to Field Day alone to keep us in smoke-filled rooms well through the night. The planning committee is trying to get squared away on all the details that don't absolutely have to come before the membership as a whole. They should be able to present a summary of the over-all plans as they smand at the present time.

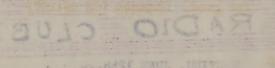

In case you're completely confused, the maeting will consist of completion of our Field Day plans. Everyone connected with the operation in any way is encouraged to be the usual supply of coffee, coke, and donuts

Our vice president, WB6AUF, has been attempting to arrange for the club to receive a large generator as a gift. To do this, we must be incorporated with the State. At the June meeting (we hope) will be Ed Peck, W6LDD, of the Caldecott, Pack, and Phillips law firm. He will be able to tell us what we must do to get incorporated and has tentatively agreed to handle the paper work himself if we decide to go ahead.

This newslotter is a kind of an experiment I beg everyone to bear with me until I am able to adjust myself to this new method of printing the newsletter. This was kind of a rush job with exams and all, so it's not exactly a work of art. The map of the Field Day site I promised didn't materialize, but I'll try to have it by meeting time. --Edo

Anyone feeling Issuifned to corment on the newslatter in any unique or form is encouraged to de see If there are any comments at all concerning ANY aspect of club activity, you are encouraged to write a letter to the editor. If it is short, decent, and expresses a particular viewpoint, I will make every effort to print it without regard to what stand is taken, All surgestion, printed or not, will be personally acknowledged and brought before the executive committee at the next meeting (exec meeting)

WANTED:

Any and all 30% of bubes, tube sockets, and plate caps I can got my hands one We also (the club) have dyre need for a B and W end link ocil for 40 meters. If we can get one, arrite nasty things about the editors and we will be able to make an cani-directional. over 10 db gain antenna for field day. Contact Gene, WB6AUF at 845-4745

MAUTED: Ada for the presidence If you have something you would like to succer some poor unsumpecting soul take baying, plause let me know. Contact the althor, LEGALK.

We have received notice (since the first page was printed) from the ARRL that we will indeed receive a movie to show at Friday's meeting. It's called, "PRINCIPLES OF RADIO RECEIVERS." It's an interesting 17 mimute film portraying the principles and workings of typical radio receivers, including orystal and tube detectors, radio and audio frequency amplification, and the superheterodyne circuit. Pratty good, wouldn't ya say?

Second the operation will appearing on the KPIK Noon News, made a slip that might have seemed offencies to the non-ham viewer. We was trying to say that he prefered direct voter contact over the mass media appearances of redio and television. In his words, "I prefer (pause) to have eyeballs with the voters themselvesone" Imagine the cold shiver from the little old ladies who could only picture the asnator sitting tour down to the breakfast table to indulge in a delicious looking eye-onleto Each!

WN6CFK got his general ticks t (general of course.) But the FCC goofed, for he is new WBSELES Dave says he doesn't really care -- it sounds batter on CWa

We hope to parsuade the Bast Bay SCM, MELRN, to some to Friday's meeting. The biggest complication is that he lives in Consord, Maybe if we kiss-up to him bey sending him station activities reports, he'll give us a little more consideration. Then again with a newsletter like this he night forget us for good. Impeach the editor?

Dear Editors

I dont like to be critical of things when I don't even raise a finger to try to correct it myself, but I would like to point out that your newsletter is definitely missing something I think you should have an erea on the second page left blank so the members can officers and take out their hostilities on the newsletter itself rather than at the

THE EAST BAY RADIO CLUB

QUESTIONAIRE
The ARRL sends out mountains to actively affiliated clubs. Biggest among our
problems in the respect is that we are not actively affiliated. To attain "action"
status, we have to know a thousand and one things about our membership. So how
1) Are you a licenced amateur (if you're now in the process of getting a license anyway.)?
2) Are you a member of the ARRL?
3) Do you own your own amateur station?
4) Do you (a) use C.W. and phone equally (b) mostly c.w. (c)mostly phone (d) ssb (e) FSK?
5) What is your current class of license?
6) Are you a MARS member? Which one?
7)Do you have any emergency power supplies? Gas driven? Dynamotors? Vibrapacks? Transistor Packs?
8) TELL NUMBER AND FOR WHAT BANDHand carried units portables
9) Are you in the AREC (ARPEC)
10) CHECK THE MODES YOU USEs.s.b. AM C.W. RITY AFSK RITY FSK Wide Band FM NFM Other
11) Are you a member of RACES?
Do you favor incentive licensing?
OUR OWN (boe-ha-ha-ha!)
Do you plan to participate in Field Day operations? Do you have any gear you would like to lend for FD?
What are your gripes about FD pperation?
Do you know of anywhere we could borrow a generator?
Do you know where we would be able to borrow a truck or trailer for FD?
GENERAL REMARKS (keep it clean):

and the second of the constitute of many the following the state of on" obstace . hoom Agents of the second of the second And the second of the second o A Committee of the comm 1 15 CAN 2 16 16 16 and the state of t The fire while the same is a second from the same straight and the same the same and The state of the s The state of the s and the second of the second o Monte page The state of the s

Tis said by all involved in the organization for THAT GREAT DAY, that we are coming

along just fine.

So now as for the rest of you participants, you should start now gathering the gear you are planning to use... Check it out... Make sure it works, AND be sure EVERYTHING IS MARKED WITH YOUR NAME AND CALL.

Also, it would be great if everyone could order and have pinned over his heart, one of those shiny new NAME BALGES that some of our members are wearing to the meetings. Our Business Manager and Treasurer SID LAGORIO can place the order for you. Only \$1.31 delivered.

OUR NEW MEMBIERS

In April we added the following people to our membership list:

And a great big fat WELCOME to sach one of YOU! Here's hoping you'll become a real partipant in EBRC's activities.

NEW LICENSE CALLS

* Bill Dean. WN6REC

* Hal Frenklin . . . WN6CCM
Eveleth Johnson . . WN6DTM
George Pereira . . . WN6DTN

* Russ Hutton WN6CVZ

Congratulations to one and all on you new call signs. Those that are given the ** star - treatment, are Retreats. The other two are from our Spring Novice Class.

Nembership time is here again—and it is a happy time for all those involved in making EERC work. Our membership has grown-Grown-GROWN! This is fine business. From observations made at last month's meeting, we ARE a happy group.

However, the Nitty Gritty Committee will be ecstatic if YOU remember to pay-up in the Happy Month of May! Our Treasurer, SID LAGORIO WN67EU, will be standing by to accept your dues. Remember, this is one Bill you won't receive in the mail, but, your cooperation is More Than Expected!

Sunday, SAPTIBER 14, was selected for the EBRU Annual Picnic. President Les, Picnic Coordinator is accepting ideas for a location. Give him a call and let him know about your favorite spot. Plan NOW to be there!

MARS

This club should DO something about becoming an active MARS member. The Mitty Gritty Committee says that we have been talking about it too long. It's time to AST! "Brownie" MAGPKF, will assist us with the process. It IS a public service and you are well rowarded with satisfaction and surplus equipment from Uncle Sam. DON'T MATT AM LONGER. See "Brownie" or President Les MON!

SILEIT KEYS

EBRC deeply regrets the passing of these fine public spirited anatours.

Herbert Hoover, Jr., W6ZH (also K6ZH) Sid Fass W6NZ

ATTENTION

Lost and Found: Please bring to the August 8 Meeting any unclaimed and unidentified gear from Field Day. We are still trying to unite some co-ax cable with its owner.

FIELD DAY POST MORTEL

The 1969 Field Day was reviewed at last month's neeting and it was agreed by all -

that OUR FIELD DAY IS FULL

Forrest Ebort WMENG, Portable Power Jointtee Chairman, has already made plans for next year's fuel set-up; jeep cans for gas, stanchions around the generator complex and all sorts of new improvements!

TBRC FIELD DAY IS FULL... so if you weren't with us this year, try to make it in 1970!?

Rumor has it that EBRC is planning to hold a "Field Day" of it's own sometime before the rains come! Why Not? We have all the gear. This one could be a fun and picnic type with liles camping out too, if they desire. Could have special certificates made up to offer as bait on the air...We should be able to work-all-states in 24 hours, yes? So give it a few minutes thought and let's hear your ideas at the August Meeting.

OUR PAPER

It is the opinion of the Mitty Gritty Committee that this "News Letter" should have a name. The JCRC has "The Circle", the Richmond Jlub has its "QRRTer", the Mayward Club has its "Chewed Rag", so why not US TOO? Your Editor, Trent Vaczovsky, does hereby promise that a very nice PRIZE will be given to the person submitting the winning name. So put those thinking caps labled "Imagination" on and thunk us up a real FB one!

Turn those clever suggestions into Pres Los Bodin, Secty Dorothy McJutchenn, or Louie Vaczovsky B61DT, Club Reporter, any time before SEPTIBER 30th. The minner will be announced at the October 10 Meeting.

YORK WORK WORK

Two different work parties were scheduled in the past month. One was on a Saturday and one was on a Sunday. Nobody, BUT NOBODY showed for the Saturday date, and the "Old Regulars" showed up on Sunday to return "Brownies" generator. Remember? A certain amount of effort has to be expended BY ALL to make this EBRC work. And not just by the "Old Regulars". If you need a ride to got thereask for one, Also, you can voice your prefrence as to day and time when it is discussed at the meetings. Is Saturday or Sunday better for you? Then make yourself available.

I know this is a tired old song, but just

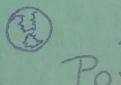

"Remember It Well".

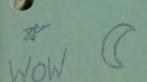

Trent, The Editor

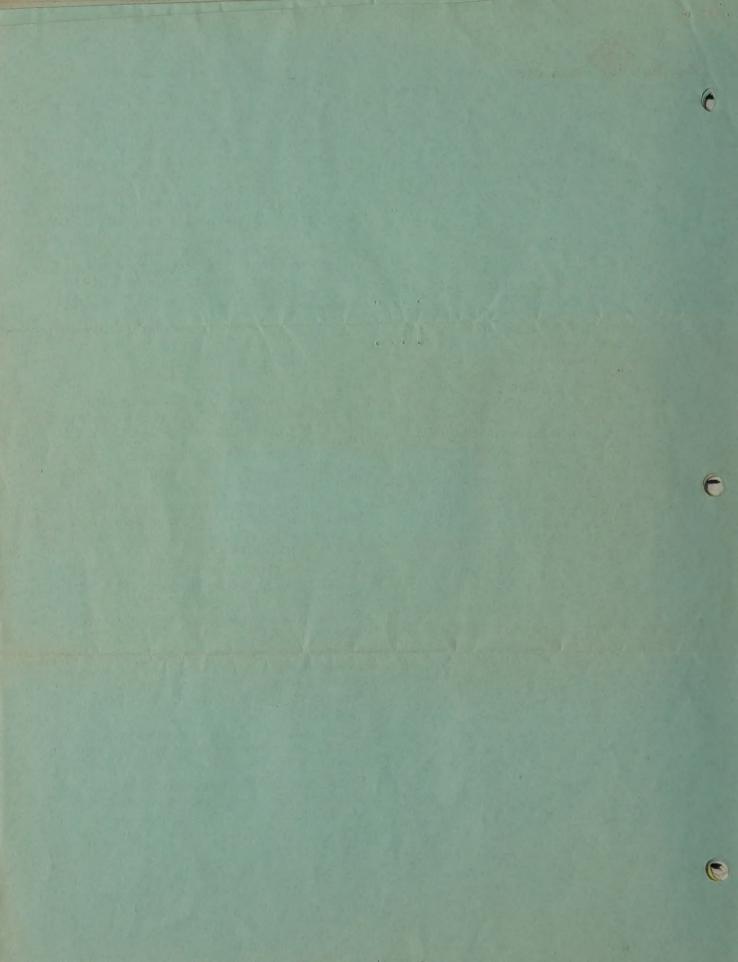

AROUND THE SHACK

- * Our Veep-Doug Landaker is the new trustee for the EBRC call W6CUS, which is now licensed with Extra Class privileges!
- * Doug Doren Wikkiu, is building himself an SWR Bridge. Let us know how it works when it's finally finished, Doug.
- * Another experimenter is our very own Secty Dorothy McCutcheon WN6PZC, who is home-brewing a 15 meter beam. Remember when she won that ARRL Antenna Mandbook?
- " We were glad to see Don Larnach WKY and Percy Neymouth W660P, drop in for a visit. Hey, don't be strangers, fellas!!
- * Chuck Taylor now has his NEW California call sine—NEKKD, Congratulations Chuck!
- * "Forgie" Ferguson W.16QCH, really knocked 13 upn for a loop at the FCJ, and then proceeded to "practice" on the written part. It happens to the best of us, "Fergie", Better luck next time!!
- * Art Neuman WB6ZAZ, assisted by Ralph Leon W6NGE, got his tower planted. The next project: "Hargng the Beam".
- * Sid Lagorio our very our Treasurer and Business Manager, has now been "Retreaded", & is now writing for his new call sine.

HOME BREW EXHIBITION

Notice is hereby given to all experimenters, home brevers and/or bootleggers, EAST BAY RADIO CLUB is planning a Home Brew Exhibit soon. You will have a chance to display your custom built products. Appropriate awards will be made. An exect date hasn't been set yet, but you should get that soldering gun and wire stripper going and see what you can do! If you have had something just in the planning stare all this time, NOW is the time to get going and build it! Good Luck!

DX-PEDITION

Our very own John Roberts WB6RKW, will be making his annual trak to Nova Scotia. Look for his SSB signal daily on 14.250 MC and on 21.350 MC between 6 and 10 pm PDT, beginning eround the first week in August. He will be stening for EBRC members and will QSL VE-p.

DUES ARE STILL DUE

The Treasurer has informed us some dues are still payable. At least have a chat with Sid Lagorio at the August Meeting so he'll know you intend to stay with us. O.K.?????

When I was young and in my prime, I knew a thing or two, And sometimes on occasion Even sent a Q R Q.

But now that I am old and gray, Things are quite a mess; I usually start the evening with OM PSE QRS !!!
